PROFILE

I am a systems engineer with +4 years of experience working with different technologies. I am a very proactive person with the ability to lead a team through my soft skills, such as good emotional communication, flexibility and motivation. In addition to the above, I also have a great ability to be part of a team, since I perform very well working together and sharing my ideas. My technical skills can be summarized as follows: Java, SpringBoot, JavaScript, TypeScript, React, Node JS, Angular, SQL, MongoDB, Firebase and PostgreSQL.

WORK EXPERIENCE

Full Stack Developer

Syri Desarrollo - ICESI | 2023 January - Actually (9 Months)

Full Stack Developer at ICESI University, I have been part of projects that automate processes, using technologies such as Typescript, React, JavaScript, NodeJS, SQL, SpringBoot. We operate under the agile SCRUM methodology. In addition, we perform QA tasks, performing manual tests to ensure compliance with the requirements of our products.

CERTIFACATE AND PROJECTS

Tech Camp, enfocado en Java, DevOps, Frontend y QA

Perficient Certificate | 2022

Tech Camp focused on the software lifecycle, from requirements analysis, design, development (Front and Back), QA and deployment.
